

SHOULD I GET A SHINGLES VACCINE

Shingles can effect areas of the **HEAD, NECK, TRUNK OR LEGS**

WHO IS A CANDIDATE?

 **EVERYONE WHO IS 50 YEARS OR OLDER** (EVEN IF you've had the shingles vaccine before)

1 IN 3 PEOPLE will get Shingles in the U.S.

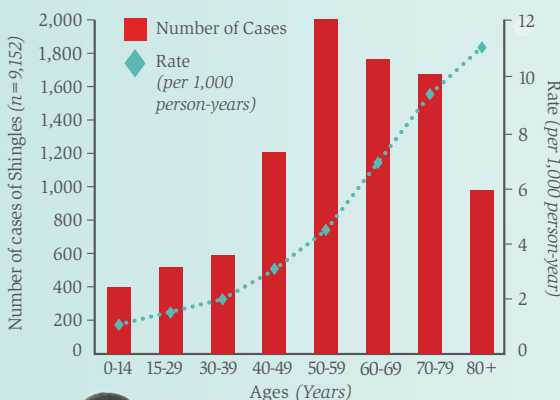

Shingles is a **PAINFUL, BLISTERY, RASH** that can last **2-4 WEEKS**

NERVE PAIN can occur after the rash and **CAN LAST FOR MONTHS TO YEARS**

WHY GET THE VACCINE?

Incidence of shingles increases as you grow older

If you do get shingles, the vaccine will make it less painful

WHAT WILL THE VACCINE COST ME?
