Abstract

We are happy to publish our third issue of the Journal of Regional Medical Campuses. The response we have received has been excellent, both in numbers and quality of submissions. Our editorial board continues to meet regularly to discuss suggestions from our readers and future plans. Please continue to pass the word of our journal to your colleagues on our regional campuses.

I would like to acknowledge the article "Lessons learned through a partnership with Marshallese faith-based organizations to screen for hypertension and diabetes" by Dr. Pearl McElfish from the University of Arkansas for Medical Sciences Northwest Regional Campus. The program she describes was the winner of the 2017 AAMC Regional Medical Campus Star of Community Achievement Award. This award was presented at the GRMC Spring meeting in Washington, DC.
