

THE REGIONAL MEDICAL CAMPUS

A Resource for Faculty, Staff and Learners

The shared goal of faculty, staff and learners at any RMC is that their campus, like the seedling on the cover of this book, will grow, flourish and bear fruit.

The Regional Medical Campus, a Resource for Faculty, Staff and Learners is designed to nurture RMCs by providing the pooled experience, insight and understanding of those who are cultivating daily in the RMC garden.

Michael Flanagan, M.D.
