

Call for Submissions

Paula M. Termuhlen, MD, Editor-in-Chief

As we continue to work with our institutions and local communities to survive and thrive during the COVID-19 pandemic, our Editorial Board invites you to submit your experiences. You will see manuscripts on this topic spread through this issue and upcoming issues of JRMC.

In addition, we are curious about how you highlight and share research on your campus. Do you have a research symposium? What kind of work do you display and how is the program formatted? Short 1-2 manuscripts on this topic with the following sections are being requested:

- Description of type and themes of research that are presented
- Who are the presenters and your target audience?
- What is the format? (e.g. posters, oral presentations, 2-minute thesis, etc)
- How do you recognize excellence?
- Lessons learned (especially during the pandemic)
- Future plans

Thank you for your support of the JRMC! We look forward to learning more about what you do and how you do it!
