Bringing Together Black Digital History
@UmbraSearch.org

BACKGROUND
The urgency of representing African American history as fully as possible drives Umbra: Search African American History (umbrasearch.org), a free online search tool and widget that aggregates and makes discoverable over 400,000 digitized materials from over 1,000 US libraries, archives, and cultural heritage institutions.

CONCLUSION
Use Umbra and embed the widget to bring diverse content into library instruction, education, and collection building. www.umbrasearch.org/widgets
